

TPXI GO · FOR TOUCHPOINT®

Ministry at conversation speed.

Your whole church directory, caller ID, and instant notes, wherever ministry happens. The data lands in TouchPoint®, where it belongs.

- Search your entire directory in one tap. Even offline.
- Caller ID for your church before you answer.
- Address, email and birthday right on the contact card.
- Notes, calls, texts & emails logged straight to TouchPoint®.

NEW ON IPHONE

Briefs and Ask TP Go

Tap Show brief on any contact card for a short summary of the person. Say **"Hey Siri, brief me in TP Go"** on the way to a visit, or **"Hey Siri, Ask TP Go"** to ask about someone, or to call, text or email them. Written on the iPhone by Apple Intelligence. Nothing about the person is sent anywhere.

Needs iOS 26 and an iPhone with Apple Intelligence (iPhone 15 Pro or newer). Your church can turn it off on its TP Go dashboard.
